We are laser-focused every day on providing the highest level of security, compliance and customer service in the industry. This is not just a job for us. It's our passion and our total commitment to hospitals, providers and patients throughout the U.S.

Michael G. Baglio  
Chief Technology Officer

### MedAptus provides unsurpassed IT experience in security, reliability and accessibility

MedAptus provides a state-of-the-art, high availability, multi-tenant and HIPAA compliant SaaS environment that integrates with existing HIT systems.

With a team of engineers that average 10-15 years of experience, MedAptus provides a level of competence that is unmatched in the industry.

We have extensive API-based, user-context and patient-context workflow integration experience, including having worked with all of the major EHR systems, such as Epic, Cerner, MEDITECH, and Allscripts.

#### HIGHLIGHTS
