

REPORTING & ANALYTICS

MedAptus' sophisticated reporting and analytics packages capture trends and provide operational insights.

MedAptus offers two cloud-based reporting and analytical packages to its customers:

- **STANDARD** - 13 reports included with every Charge Capture product *
- **PREMIUM ANALYTICS** - More dynamic customized reports and analytics

*Customers can also order customized reports on an as-needed basis for a fee

DATA SHARE - You can also receive your data every night so it can be stored on your own servers.
